QUINCY, PLUMAS CO., CAL.

SATURDAY, DEC. 23, 1865.

THE RESULT.—The Senatorial fight is over, and quiet once more reigns in the political camp. The election of the Hon. Cornelius Cole, as U. S. Senator for the term of six years from March, 1867, has put a quietus to the partisan warfare which has waged so fiercely during the past six months. His election seems to give general satisfaction to all parties, Democrats included. To read the encomiums bestowed upon the Hon. Senator elect, by the almost entire press of the State, it seems strange that the name of any other person should have been mentioned as a candidate for U. S. Senator. But other names have been mentioned, and other persons have been candidates. Alas! they are candidates no longer. They can now return to their homes and attend to their private business. The people of the State have no need of their services at present. Candidates, if we can believe their "organs," who were the only fit persons to be party leaders, who had more ability and statesmanship, who were more learned, and who were better Union men than any other of the candidates, have been left out in the cold, and yet, since Mr. Cole's election, these same organs are trying to outdo each other in their praise of the successful candidate.

Since the withdrawal of Gov. Low's name from the list of candidates, there has been but two prominent candidates for U. S. Senator, viz: A. A. Sargent and Mr. Cole. As between the two, our preference was well known, and we believe that in the election of Mr. Cole, the Legislature have but coincided with the expressed wish of a large majority of the Union party of this State.

In regard to the election of Mr. Cole, the

Sac. Bee says:
At Washington no man from this coast has had greater influence. The Cabinet officers know him to be truthful, and have faith in what he says. For, whether the facts sought for him or against him, he will not quibble or equivocate. He is a sober man, does not permit his passion or his prejudice to control his judgment, and knows how to behave himself among gentlemen, which virtues seem to be rarities now-a-days. The Union party has made a wise selection, both for the interest of the State and the triumph of its principles.

U. S. SENATOR.—On Saturday last, the Legislature of this State met in Joint Convention for the purpose of electing a U. S. Senator. On the first ballot, Cornelius Cole received 92 votes, W. T. Coleman 26, and Eugene Casserly 1, whereupon Cornelius Cole was declared duly elected Senator from this State, for a term of six years, from March 30th, 1867.

At a caucus of the Union members of the Legislature, held the night previous for the nomination of a candidate to be supported by them, but two names were placed in nomination, viz: Aaron A. Sargent, the "Statesman of Nevada Co.," and Cornelius Cole. Upon the roll being called, Mr. Sargent received 31 votes, and Mr. Cole 60, and as a resolution was adopted in the caucus, pledging the members to the support of the nominee of the caucus, the nomination of Mr. Cole was equivalent to his election.

SALE OF FAST HORSES.—The famous running horse Lodi and the trotting horse Jim Barton were sold at Auction in San Francisco, Dec. 18th. Lodi was knocked down for \$5,100 and Barton for \$450. Nathan Coombs of Napa was the purchaser of Lodi, and it is said will keep him for breeding purposes.

THE DIRECTOR OF THE UNITED STATES MINT at Philadelphia, has made for the Secretary of the Treasury specimens of eagles, dollars, halves and quarters, bearing the motto "In God We Trust" in addition to other legends. Secretary McCulloch approves the designs, and the coin will hereafter bear that motto.

IS AFTER THEM.—The Democratic Review, (Salem, Oregon), is after its defaulting patrons with a sharp stick. It has stricken from its list of subscribers all who have not prepaid, and intends, after the 1st of January, to publish a delinquent list, containing the names of all indebted to that paper.

THE P. M. S. S. Company have received notice of the arrival in New York of the Henry Chauncey, in six days and two hours from Aspinwall. This is, by several hours, the quickest trip ever made by a steamer.

A LETTER FROM MEXICO says that the Imperial Government has arrested several Americans on the charge of sympathizing with the Liberals, and sent them out of the country.

DEATH OF JUDGE SHEPHERD.—A dispatch to the Union this morning announces the demise of Judge Shepherd, of San Francisco, on the evening of the 10th. He was just fifty-two years of age at the time of his death.

Tax balance in the State Treasury at the commencement of business, December 18th, was \$1,787,059 81. The amount received at the State Treasury, from the 1st to the 18th of December, was \$1,004,989 97.

OLEARY, Fenian, has been found guilty and sentenced to twenty years penal servitude. He made a speech denying that he was a traitor. He declared he owed no allegiance to the Queen of England or the British laws.

LETTER FROM SACRAMENTO.

SAC. CITY, Dec. 14th, 1865.

DEAR UNION:—Have been in this village over a week and begin to feel quite at home. The city is putting on the habiliments of permanency. On J. K. and Second streets, the grade is being raised to a point four feet above high water mark. The buildings are being proportionately raised, and in time Sacramento will be able to bid defiance to flood, her greatest enemy. I well remember floating through here, in January, 1850, in a large schooner's yawl, in company with seven other young seekers after gold, and the remembrance of that aqueous passage through J street, to old "Sutter's Post," has indelibly stamped itself on my mind as one of the days which deserve a monument like a mile stone to mark human passage. Of that number who then discerned through the clear atmosphere of that January day, the aura-clad mountains of the fabulous Sierras, some have gone to the land where the uncertain becomes certain; others still struggle on, now as then, after the purposes of individual life. Some, like myself, creep timidly by the shore; others have risen high in State and National councils, and one now seems to bare his brow for the honors of U. S. Senator.

The Senate appears to be a calm wise body. The Assembly partakes more of the hustings. Politics, of course, mix in with all the schemes, yet it seems to me that all parties unite in one policy, and that is in endorsing President Johnson, but if resolutions, patriotic in word, come from a Democrat, they are unceremoniously laid on the table, or sent to the Committee on Federal Relations. I have read, carefully, Senator Shaw's (of San Francisco) resolutions, and with the exception of a word or two, find nothing therein that I cannot endorse. Indeed, had they been introduced two years ago in the Senate, by a Democrat, he would even have been looked upon by sound Union men as somewhat ahead of the age. As it is, the general impression appears to be that "no good can come out of Nazareth." Still, there is so little difference between the Union and Democratic resolutions, that it takes a sharp eye to distinguish which is the better. Of course both parties keep a close watch on Andy, and are sailing almost in the "wind's eye," and nothing in the shape of a fence exists between the two in this Legislature, save the bitterness of the "has been." He was a Copperhead, seems enough to damn any one, and all his protestations of Unionism and loyalty are set down as attempts to "get whitewashed."

Senatorially, the chances of the different candidates are barometrical. On Saturday last, the hand pointed fair for Low; on Sunday, still fair; on Monday, the hand indicated cloudy; on Tuesday, wet; on yesterday, stormy, in strict exemplification of the laws of the weather. As Low's chances went down, some others went up. First, a "buzz" would go round for Wheeler. (1) Then for Halleck. Then for Pixley. Then for Billings. Cole and Sargent stand aloof from all the combinations which have resulted in bringing together such strange elements as Parks of Sutter, and Bill Carr. Gorman has head cook in the Low kitchen. Cole has, I think, the call of Sargent, but if he should draw out, no small portion of his strength will go for some third person. His friends in the legislature cordially detest Sargent. Sargent cannot draw enough from Cole to secure a nomination, but if he should draw out in favor of Cole, Cole would undoubtedly succeed McDougall. (He probably will.—Ed.) These are my speculations on the subject, and as the Union members go into caucus to-morrow night, it cannot effect anything if I do guess a little bit. My guess is this, that the final ballot in caucus will be between Cole and Sargent, with the chances largely in favor of Cole. (Pretty good guess.—Ed.)

Goodwin has given notice of introduction of some bills local to Plumas and Lassen. "To fix the time for Supervisors to enter on the duties of their offices," "To amend our road law, changing the time for appointing overseers of roads," and to amend the boundary of Lassen Co. A bill has been passed, which will allow the Legislature to go into Joint Senatorial Convention, prior to January 1st. Smith of Butte sounded the bugle against the gold monopoly, and the general impression seems to be that the odious Specific Contract Acts will be repealed. This, however is counting on many uncertainties, for between the Senatorial imbroglio, the Pacific R. influence and money-bags, there is no telling where the fight on greenbacks will terminate. The lobby is, as usual, active, but some of the successors of Sam. Smith declare that the thing wears too much the mark of a close corporation. In haste, B.

THE NOMINATION.—In the caucus of the Union members of the Legislature for the nomination of a candidate for Senator, Hon. C. Cole was nominated on the first ballot. The vote was as follows:
For Cole—Senators Banning, Benton, Dodge, Evans, Hardy, Heacock, Knox, Lovett, Mizner, Murphy, Myers, Porter, Pratt, Robinson, Smith, Tubs, Tuttle, Wright.—Assemblymen Anthony, Bowman, Brown, Contra Costa, Bugbee, Hopper, Campbell, Chamberlain, Clayton, Coglian, Corey, Dorr, Dutton, Dyer, Eager, Frink, Goodall, Green, Hansbrow, Hill, Hogle, Hollister, Howard, Hunt of Sacramento, Hunt of Santa Clara, Huestis, Ireland, Kidder, Lemon, Maholm, Olds, Perrin, Reed, Sawyer, Sherwood, Singleton, Smith of El Dorado, Taylor, Tilden, Wiggin, Wilcox, Wilson, Ruck.—60.
For Sargent—Senators Belden, Bradley, Cunningham, Ewer, Hale, Hartson, Jones, Kutz, Leonard, Maddox, Teegarden, Wadsworth, Wolcott.—Assemblymen Ayer, Batchelder, Bosquit, Chappell, Collier, Dornin, Hamlin, Hatch, Lee, Leech, Meredith, Murch, Pattison, Sexton, Smith of Butte, Steele, Stewart, Yule.—31.

LEOPOLD, King of the Belgians, and for many years one of the leading statesmen of Europe, is dead.

PLUMAS COUNTY.

ITS WEALTH AND ITS WANTS. NO. 4.

We began, and have continued these series of communications for the sole purpose of demonstrating to the community at large, the advantages, and the vast sources of wealth, which are contained within the boundaries of Plumas county,—and also to call the attention of its inhabitants, to its wants, or, rather, its great want, to-wit: a wagon road along one or the other of the routes heretofore indicated, which, when completed, would give to this section a monopoly of the travel between the Sacramento Valley and the vast regions of the State of Nevada and the Territories of Idaho and Washington, during the greater portion of each year,—and that then capital would flow in upon us, as a natural consequence, and greatly facilitate and expedite the development of the yet hidden wealth of this county.

We hope we have said enough on this subject,—the vast importance of this road—to arouse the combined energy of our people in its behalf. Some may even think we have already said more than enough. We, however, think that its importance should be forced upon the people at large, so that not only our business men will give it a favorable consideration, but also that its importance may attract the favorable attention of our Board of Supervisors, and future Grand Juries. Nevertheless, that we may not become irksome, we will, in future, chiefly confine ourselves to a cursory notice of the wealth, developed and undeveloped, of Plumas county.

DEVELOPED WEALTH.

Many of the Placer and river mining localities of Plumas county have long been recognized as among the richest in this State. All who have been acquainted with the mining history of California, for the last fifteen years, are well aware of this fact. Some of these mining localities have been, in a measure, worked out, and are now abandoned. Others are still being worked, and yielding a rich return to the industrious miners, who have the good fortune to own claims in these mining camps. The fact is, a great many placer and river mining claims will now pay well for being worked, (owing to the present improved methods in mining,) which, but a few years ago, would have been considered entirely worthless. And, upon the theory that "practice makes perfect," or the one equally applicable to the case under consideration, that "necessity is the mother of invention," it is too much to predict that mining ground, which will now only pay from one to two dollars per day to the work hand, will, in the course of time, owing to further improvements in mining, become valuable and paying claims? And hence, millions of dollars, now safely locked in the bosom of mother earth, will find their way into the great commercial channel of the civilized world, and the hardy miners of Plumas county reap the benefit. As it is, even with the present system of mining, there is a countless number of placer and river claims in this county, which pay very well for the working, and from which a large amount of gold is annually extracted.

But the most important and permanent mining interests of Plumas county, consist in its numerous, rich and extensive quartz lodes. These lodes, for the most part, consist in rich auriferous and copper bearing quartz, with here and there a lode of argenteous and galenic rock; the latter of which may, in course of time, when thoroughly prospected and developed, be found quite rich, and add materially to the mining wealth of our county. But for the time being, we will confine ourselves, whilst descending on the mineral wealth of Plumas, to the gold and copper bearing rock, which we know to be rich and productive.

And yet, strange as it may appear, it is only within the last four or five years that these species of mineral rock have attracted any considerable degree of consideration from our mining population, and capitalists. Although every one, who was conversant with the topography of Plumas county, was well aware of their existence. We say to any considerable degree, because in the Jamison section there was a number of locations made as early as 1851, and some of which have ever since been worked to great advantage and profit. Among these are the Eureka, Mammoth and '76.

The Eureka mine is situated on the Northern or Western end of the Eureka Hill, and was, we believe, the first portion of the ledge discovered. At the Western terminus of this Company's claims, there is a beautiful little mountain lake, which the energetic discoverers of this ledge turned to vast account in creating water-power to crush the rich auriferous rock taken from their claims.

The original discoverers of these claims, we have heard said, without any capital save indomitable energy, untiring perseverance and strong arms, opened their ledge, built their first quartz mill, and laid the foundations for immense fortunes. This, be it remembered, was in the early days of California, in 1851 and '52, "the halcyon days" of mining, when labor was high and paying placer diggings easily obtained. What a valuable lesson for the present and future quartz prospectors in our county to learn, and what a worthy example to follow, and then in after days, when enjoying the fruits of their labor, they can say:—
"Fortune, like woman, tho' bound to be ruled,
Yields only to the forward and the bold,"
or, in the language of the Roman poet:—
"Nil natara mortalibus dedit, sine magno labore."

The Eureka Co. added one mill after another until the company now has three or four fine quartz mills in successful operation, by means of which a vast amount of gold is annually extracted from this mine. The

Mammoth Co's claims, taken up and located about the same time or shortly after the Eureka's, are very rich and valuable. The Mammoth Quartz Mills are situated on the Eastern side of Eureka Hill, and are propelled by the waters of Jamison Creek. A great deal of gold has been taken from these claims, and under the management of the present owners, this mine is destined to become very valuable paying property.

The '76 Co's claims are situated on the same ledge,—are very rich and extensive, but, although they were located about the same time that the Eureka and Mammoth were, they have never been a source of income to their owners, owing to the manner in which they have been worked. Nevertheless, they must be classed among the richest of our very rich mines, because, whenever they are worked as such claims should be, they will yield immense quantities of gold. There are other ledges and quartz claims in this vicinity, which are said to be valuable.

In our next, we will continue this same subject.

*Nature hath given nothing to mortals without great labor.—[Ed. Union.]

The revolution in Peru has triumphed and peace is restored. The overthrown President took refuge on an English man-of-war, and is on the way to Panama. Lima was captured on the morning of the 6th of November, by the revolutionary troops. No resistance was offered, except by 400 troops in the Plaza, where the Palace was defended till all were shot. The Palace was fired, and narrowly escaped destruction. The Fort of St. Catalina held out under the Minister of War, who expected aid from Pezet. The latter, however, marched toward Callao next day, and the fort was captured. The new President, Canzaco, sent a demand for the surrender of Callao, and that night Rivas abandoned the post. The city was soon in possession of an excited mob, who, divided into bands, robbed and plundered every principal shop and store in the place. What property could not be taken away was destroyed. Immediate steps were taken by the citizens and foreigners for protection. Next morning Pezet's army appeared outside of the town; but, before night, he, with some officers, escaped to an English man-of-war. The next day the fleet fled, and order was restored in Callao and Lima, and Canzaco was in charge of the Government. The new Government will doubtless repudiate the treaty with Spain, and make common cause with Chile, the overthrow of the Spanish treaty having been the cause of the revolution.

FEE'S IN OFFICE.—The most important legislation required by the people of California, is the passage of an act regulating fees in office. The officials of this State are vampires, leeching the life blood from the people. Once in two years a hungry crew in the State that manages to keep even, while the people are taxed most unmercifully to make county officials rich. Why should county officers receive quadruple for their services what men engaged in other business pursuits receive? Why should the people be ground down and kept poor that a bevy of county and State officials should each year get rich. Many county offices are entirely useless, an extra man to gild up the people's money. Abolish some, reduce others, and give the people a breathing spell.

Another reason for reducing fees in office, is that the present fortunes attendant upon office generates corruption, fraud and all the evils that curse our political election. When politicians can afford to spend from one to five thousand dollars for a county office, it is time that such offices were abolished, or their fees cut down without mercy. The State at large sends up a complaint of poverty, and each year growing still poorer. What is the cause? Heavy taxation is one cause. Add to the Federal tax the State and county taxes, and it is with the utmost economy a man finds himself even at the end of the year. This is the general complaint all over the State, and to the Legislature the people look to remedy the evil. There is not a county in the State but the fees and salaries of the county officials will bear, and should be reduced from five thousand to twenty thousand dollars annually. Some offices should be abolished entirely as expensive nuisances, whilst others will bear any amount of pruning.

Let the press of this State urge this matter as faithfully as the importunate widow, until relief is granted.—[Chico Courier.]

AN UNWASHED CANDIDATE.—In his letter to the New York Tribune, Mr. Richardson relates that "one of the present candidates for United States Senator is noted for his slovenly attire. A lady said to him that 'Mr. Blank is really the best man, and I should like to see him elected if the Legislature would give him instructions.' 'What instructions?' asked her interlocutor. 'Instructions to put on a clean shirt once a week, and wash his face every morning.'"

THE TABLES TURNED.—We learn by the Union's dispatches that the French are still besieged in Aspinwall by the Liberals, who come into town every night. Only about 300 of the garrison are fit for duty. The rest are sick or have deserted. The fortress is to co-operate with garrison from the interior, retreated without effecting anything, the Liberals being too strongly posted for dislodgement.—[Bee.]

SECRETARY SEWARD has issued a proclamation, declaring that the amendment to the Constitution abolishing slavery has been ratified by the requisite number of States.

Marriages.
At Taylorville, Dec. 12th, 1865, by Rev. A. L. S. Bateman, Mr. Thos. J. Tague to Miss KARR DIBBLE.

Births.
At Soda Bar, East Branch, Nov. 26, 1865, the wife of Thos. Hughes of a daughter.
At Butterfly Valley, Dec. 16th, the wife of John Ball of a son.

RELIABLE SEEDS.
EDWARD E. MOORE,
425 WASHINGTON ST.

THE UNDERSIGNED, A PRACTICAL AGRICULTURIST, is now prepared to supply the wants of Merchants, Farmers and all others, by wholesale or retail, of such seeds as will not disappoint those who use them, and seeds after using the utmost care in their selection in getting them true to their kind. We have suitable grounds prepared to test the different varieties, so as to insure their reliability.

The Assortment consists of
ALL KINDS OF VEGETABLE SEEDS,
ALL KINDS OF FLOWER SEEDS,
ALL KINDS OF GRASS AND RED AND WHITE CLOVER SEEDS,
ALSO ALFALFA AND LUCERNE.

EVERGREEN SEEDS, NATIVES OF CALIFORNIA AND ADJACENT STATES.
All kinds of Trees and Shrubs,
All kinds of Flowers in their Season,
All kinds of Bulbs in their Season,
Strawberry and Raspberry Plants.

The undersigned deems it superfluous to name every article for sale, but merely remarks, that no one has a superior assortment, and no one will deal more honorably by his customers, to whom he refers with confidence, as universal approval has been awarded him.

Small papers at wholesale and retail.
All communications, or orders, by Mail, or Express Co., attended to promptly.
Catalogues furnished on application by letter or otherwise.

THE LAST CALL.

NOTICE is hereby given, that the Delinquent Tax list of Plumas County, for the year 1865, has been deposited with John R. Buckbee, Esq., Dist. Atty., of said county, and if the delinquent taxes therein specified are not paid to the Co. Treasurer within twenty days from the date of this notice, action will be commenced by said Dist. Atty., for the collection of such taxes, and costs.

Auditor's Office, Quincy, Plumas Co., Cal., December 6, 1865. W. W. KELLOGG, Co. Clk 6-td. and Ex-Officio Auditor of Plumas Co.

Notice of Dissolution.

THE Firm of MYERS & RITCHIE is this day dissolved by mutual consent,—either of the parties being authorized to settle the affairs of the late firm.

October 2nd, 1865. S. MYERS. D. RITCHIE.
THE business will be carried on at the old Stand by S. Myers, after this date. S. MYERS. Nelson Point, Oct. 2, 1865. 49-td.

Special Notice.

JUST SO SURE AS NIGHT FOLLOWS THE day, so sure will sickness follow neglect to keep the blood in a pure condition; for it is a well known fact that impurity of the blood, is the prime cause of nine-tenths of all the diseases with which the human race is afflicted. Adams' Blood Purifier, if used according to directions, will remove from the blood all impurities, restore the patient to perfect health, and act as a preventative to disease of almost every description. It does not contain Mercury or any other Mineral Poisons in any shape, and the Proprietor pledges his honor that it is a strictly vegetable preparation, and, in every respect, perfectly harmless to the system. 6-3m.

IMPORTANT MEDICAL DISCOVERY.

ELECTRICITY AS A CURATIVE AGENT.

WHEN IT WAS PROMULGATED BY THE Directors of the ELECTROPATHIC INSTITUTE, that disease could be entirely eradicated from the system without the use of poisonous drugs, the thoughtless, and those who do not look deeply into cause and effect, scouted the assertion as chimerical, and wrote long articles replete with sophistry, claiming that only through the digestive system could the blood be purged of the poisons which constitute disease; a great cry went up from those interested in the continued supremacy of the old system of one poison to cure another. All of the empirics joined in the chorus, and in their ignorance laughed at the new system, circulating their stories of its ill success, and quoting imaginary cases as proofs. Time has demonstrated their dishonesty. After five years of uninterrupted success the Electropathic System is the leading idea in medical jurisprudence, and is now curing another class of cases. Physicians were content to cure one in every five cases, where those who were diving deep into the science of the curative art; among these were the Electropathists. Finally, it was discovered that the failure in most of the cases of organic disease, was entirely due to the machine. Taking this view of the case, Dr. J. H. JOSSELYN, after years of experiment, has perfected an Electropathic Instrument which will cure any disease which flesh is heir to, always to be understood that this case is not so far advanced as to show a destruction of nerve, or any other part of the system. We do not claim that the use of medicines may not be more advantageous in some cases, but, that in connection with medicines, the use of a cure much sooner than without, and also that diseases hitherto deemed incurable, can be cured by this system.

But the Directors desire to take this opportunity to inform invalids that the Resident Physician is a regular graduate, and has had a large experience in the treatment of diseases, and can cure without the aid of electricity. He has also discovered several "Ecclectic" vegetable remedies that will cure almost any nervous disease, to which he will send, with full instructions for use, any part of the Pacific Coast, upon receipt of a complete description of the disease with which the applicant may be afflicted, and will warrant a perfect cure in all cases where the medicines are used according to directions; and more especially in all cases of FEMALE TROUBLES where there is nerve and emotion are necessary to a favorable result. From early morning until late at night, this instrument is employed, imparting health and strength to all who are so fortunate as to obtain a perfect cure. Diseases which (by the old system) took months, or even years to cure, are now cured in a few days or weeks. The cost, too, is not so great as by the old system, besides the saving of time. Connected with this system is the renowned

Electro-Magnetic Baths, in which there is no more powerful auxiliary in the treatment of the radical cure of disease. There is no institution in the State where the electropathic system is practiced, except at the

Electropathic Institute, 645 Washington Street.

This Institute was established to, if possible, prevent the unwary from falling into those den of robbery, (clever quack doctors' traps), and hereafter the scientific originators of this Institute will not be to blame if the afflicted are robbed of their money, and injured in constitution. There is also another view of the affair. The rising generation should be reared with strong constitutions, and the Directors wish to arouse their guardians to a proper sense of their duties in their premises, if possible to prevent them from suffering their young charges with deleterious drug, with a chance of entailing upon the tender constitution, just forming, a complication of evils, a thousand times worse than death.

It would be consuming space, to no purpose, to enumerate the diseases to which this system is applicable; suffice it to say, that there is no disease within the catalogue of human ills but what can be cured at the Electropathic Institute. We have instructed the Resident Physician to receive, free of charge, and permanent cure, or ask No Pay for Services, when, in his judgment, it is within the bounds of cure.

CAUTION.

Persons seeking the Electropathic Institute, should be careful to remember the name and number: **ELECTROPATHIC INSTITUTE,** 645 Washington Street, South side, between Kearny and Montgomery, over the Restaurant.

J. H. JOSSELYN, M. D. Resident Physician.

on the sign. With these remarks we leave the interest of the Institute with the public, asking only the same generous confidence and patronage thus far awarded to it. The record shows over twenty thousand consultations, and a very large amount of suffering relieved.

Persons wishing to consult the Resident Physician by Letter, can do so with the utmost confidence. All letters must be addressed, plainly, to J. H. JOSSELYN, M. D., Box 1945, San Francisco, Cal. All letters will be destroyed or returned, as directed by the writer.

Office hours from 9 A. M. to 4 P. M. 5-3m.

ADAMS' BLOOD PURIFIER.

For Diseases having their origin from the Impurity of the Blood and Derangement of the System.

THIS BLOOD PURIFIER IS A CONCENTRATED compound of Sarsaparilla, Yellow Dock, Wild Cherry, Dandelion, with Iodide of Potash, and several other of the most efficacious remedies known in the vegetable world, and will exert an immediate effect on the system, and if persisted in for a reasonable length of time, will eradicate all latent poison from the blood.

It contains no Mercury or Mineral Poisons.
Prepared only by **ADAMS,** at the UNITED STATES DRUG STORE, Cor. of Powell and Bush streets, San Francisco. For sale by all Druggists. Price 75 cents per Bottle. 5-3m.

The Quincy Union.

LOCAL ITEMS.

BULLION.—Over \$20,000 was forwarded to San Francisco, by Whiting & Co's Express on Monday last.

STOPPED.—All work upon the Butte Bar ledge was discontinued some time since. Reason—it won't pay.

GRAIN.—Several teams have been freighting grain from this valley to Virginia City during the past month.

DELINQUENTS.—Remember that Wednesday next is the last day that takes can be paid to the County Treasurer. After that date the District Attorney is required to commence suit against all delinquent.

STAMP.—Justices of the Peace and Constables on filling out their official bonds should affix a \$1 revenue stamp as by law required. When the bonds are forwarded to the Clerk's office, the fees for filing and recording should accompany the same.

ELECTED.—W. Gilbert was elected Supervisor of District No. 1, at the last special election in that Supervisor District. The vote stood, Gilbert 401, McGee 84. The vote was very small, as over 900 votes were polled in that District at the General Election.

SAWPI.—A correspondent, writing from Sawpit Flat, informs us that the New York Company has struck gravel in their tunnel that prospects well. One day last week, the Eagle Company got \$20 in a pan of gravel, from their claims. The Monitor Company cleaned up \$3,000 for a run of three days last week.

FINED.—On Monday last, Mr. Woolsey filed a complaint in Justice Hersey's Court against W. Rains, charging him with an assault and attempt to kill. A warrant was issued, and the case coming on to be heard, the defendant pleaded guilty to assault and battery, whereupon Justice Hersey fined him in the sum of \$40. The fine was paid, and defendant discharged.

MASONRY ELECTION.—The following officers were elected for the ensuing Masonic year, by Plumas Lodge No. 60, F. & A. Masons, Dec. 24, 1865: Ezra H. VanDeusen, W. M.; Geo. W. Moore, S. W.; Benj. Coburn, J. W.; Chas. T. Kaulbach, Treasurer, and Wm. T. Byers, Sec'y. At the same date, the following officers were elected by Sincity Lodge No. 123, at Taylorville: Benj. Coss, W. M.; J. B. Brown, S. W.; Jno. Pettin, J. W.; N. C. Cunningham, Treasurer, and Chas. E. Abbott, Sec'y.

AMUSEMENT.—A correspondent of the Messenger, writing from Sawpit Flat, says:

First, we have a chess club, and everybody seems to have chess slight on the brain. In short, the world seems suddenly to have been turned into chess-boards, knights, dukes, queens and castles. Then we have two singing schools—two evenings a week at Montville, and two evenings a week at Sawpit. Our dancing school meets on two evenings of each week, and the Division of Sons of Temperance claims our attention on Saturday evenings. Besides these little local amusements, the Waverly Magazine has sent us an almost unlimited amount of recreation. Every young man has at least one dear, unknown, far distant lady love. These dear little creatures write us often, and write us sweetly too. Now and then some far distant charmer sends a photograph of her dear little angelic self and then somebody is happy. Pen, pencil, everything, fails to convey any idea of the happiness or a "poor lone creature" when one of these sweeties arrives.

"SUCCESS THE TRUE STANDARD OF MERIT." If there is any truth in the above old adage, then it is truly the Electrotypic Institute of San Francisco. This establishment was opened to the public about six years since, under the management of Dr. J. H. Josselyn, who has during that period treated upwards of twenty thousand cases of disease to a successful issue, with the exception of a very small number, who were too far gone, having been overdone with poisonous drugs, by some of the numerous quacks with which our State abounds.

During the whole time, the Resident Physician, Dr. J. H. Josselyn, has received and replied to more than six thousand five hundred letters, besides giving his personal attention to all the patients of the Establishment, an amount of work that it would be hard to find another man on this coast with physical power sufficient for the undertaking, and yet the Resident Physician is to all appearance a man of very delicate constitution, but his scientific attainments are such as enable him to determine the nature of the disease with which the applicant may be afflicted, almost instantaneously, and to prescribe such treatment as will produce a speedy and permanent cure. The mode of treatment at this Institute is peculiar. No poisonous drugs are given under any circumstances, and in numerous instances the sick are permanently cured without the use of one particle of medicine of any kind. Persons requiring a physician of any kind, or who wish to read the advertisement of the Electrotypic Institute elsewhere in our paper.

THE GREENBACK CERTIFICATES.—A telegram of Dec. 12th says:

The principal actor in the preparation of the plate from which the celebrated one hundred dollar interest-bearing treasury note counterfeit was printed has escaped terrestrial punishment. He was suddenly attacked with a virulent disease and died before the discovery of the fraud. All the other parties concerned are known and will soon be brought to trial. The case develops an interesting history of the Treasury Department was seduced by the counterfeiters and became their most efficient ally. Through his agency and that of a woman who figures in the case, the successful imitation of the back of the bill was accomplished. The most skillful engravers of the country were engaged in producing the counterfeit, and went on banking business while did a thriving business, issuing a total of \$750,000 before the fraud was discovered.

JEFFERSON DAVIS.—The Herald's Fortress Monroe correspondent says: Jeff Davis is turning attention more than ever to the concerns of his soul. He has recently been visited by his spiritual advisor, the pastor of St. Paul's Church, Richmond, who passed the entire day with him in prayer and religious reading, and administered the sacrament.

LASSEN CO.—By the Auditor's Report of Dec. 4th, as published in the Sage Brush, we learn that the indebtedness of Lassen Co. on that date, was \$10,606.98. More than double the debt of Plumas at that date.

Summons.

STATE OF CALIFORNIA, COUNTY OF PLUMAS.

In the District Court of the Second Judicial District, of the State of California.

David Taylor, Plf., vs. Wm. M. Cannon, Def.

Action brought in the District Court of the 2nd Judicial District of the State of California, in and for the County of Plumas, and the complaint filed in said County of Plumas, in the office of the Clerk of said District Court.

The People of the State of California send Greeting to WM. M. CANNON, Defendant.

YOU ARE HEREBY REQUIRED TO APPEAR in an action brought against you by the above named Plaintiff in the District Court of the Second Judicial District of the State of California, in and for the County of Plumas, and to answer the complaint filed therein, (a copy of which accompanies this summons), within ten days, (exclusive of the day of service), after the service on you of this summons; if served within this county; or, if served out of this county, but within this Judicial District, within forty days; or, if served out of this District, within sixty days; and if you fail to appear and answer said complaint as above required, the said action will be taken against you according to the prayer of said complaint.

In the said action is brought to recover judgment against you for the sum of Six Hundred Dollars in U. S. Gold Coin, with interest on said sum, at the rate of 2 1/2 per cent. per month, from June 3, 1865, in and for the County of Plumas, and for costs herein expended. Said sum is alleged to be due you by said Plaintiff, on certain promissory notes, dated at Indian Valley, June 3, 1865, for the sum of \$900 00 in U. S. Gold Coin, with interest at 2 1/2 per cent. per month, said note made payable to David Taylor, on the 3rd day of June, 1865, and the said action, and signed by you, the said Defendant, Wm. M. Cannon.

You are hereby notified that if you fail to appear and answer said complaint as above required, said Plaintiff will take default judgment by default against you for the sum of \$900 00 in U. S. Gold Coin, with interest on said sum, at the rate of 2 1/2 per cent. per month, from June 3, 1865, in and for the County of Plumas, and for costs herein expended.

Given under my hand and the Seal of the District Court of the Second Judicial District of the State of California, in and for the County of Plumas, this 14th day of November, in the year of our Lord One Thousand, Eight Hundred and Sixty-five.

W. W. KELLOGG, Clerk.

Constable's Sale.

NOTICE IS HEREBY GIVEN, THAT UNDER and by virtue of an execution to me directed, issued from the docket of M. B. Sturges, a Justice of the Peace in and for the Township of Washington, County of Plumas, and State of California, on a judgment rendered therein on the 7th day of October, A. D. 1865, in favor of John B. Overton, and against C. Coyot & Howell, for the sum of One Hundred and Sixty and 15-100ths Dollars, judgment, and Twenty-three Dollars, costs of suit, as appears on record, I have levied upon and seized, and will expose to sale at Public Auction, on the premises, on Saturday, the 16th day of December, 1865, between the hours of 9 in the morning, and 5 in the afternoon, all the right, title and interest of said C. Coyot & Howell, in and to the following described property: First, a certain saloon, and grove, situate on the North side of Main street, in Sawpit Flat, Plumas county, California. Also two billiard tables, one large iron safe, barroom stove, cooking stove, bar fixtures, and all other appurtenances to the said buildings belonging, or so much thereof as will satisfy said execution and costs, to the highest and best bidder, for cash.

M. SNIDER, Constable, of Washington Township.

Dated, Sawpit Flat, Nov. 29, 1865. 4td.
